

# SUPER FAST & BUILT TO LAST

Network Attached Storage (NAS)

**VANGUARD**   
**RUGGED STORAGE**

# NETWORK ATTACHED STORAGE (NAS)

The Vanguard NAS Product line spans a large range of capacities and form factors, and is highly configurable to meet any commercial, industrial or rugged networked storage requirement.

|                             |                                     |                            |  |
|-----------------------------|-------------------------------------|----------------------------|--|
| <b>Network Interfaces:</b>  | 1 Gbit Ethernet<br>10 Gbit Ethernet | <b>Capacity:</b>           | 120 GBytes to 1440 TBytes                          |
| <b>Internal Interfaces:</b> | SATA, SAS, NVME / PCIe              | <b>RAID Options:</b>       | 0, 1, 3, & 5                                       |
| <b>Operating System:</b>    | Linux                               | <b>Removable Drives:</b>   | 2 to 45  |
| <b>SNMP v3 Support:</b>     | Available                           | <b>Storage Technology:</b> | Solid State or Hard Disk                           |
| <b>Self Encrypting:</b>     | Available                           | <b>Cooling Options:</b>    | Air Cooled, Conduction Cooled                      |
| <b>In Line Encryption:</b>  | Available                           | <b>Temp Ranges:</b>        | Commercial, 0 to 70 C<br>Industrial, -45 to + 85 C |
| <b>Data Destruction:</b>    | 10+ Options Available               | <b>EMC / RFI:</b>          | MIL-STD-461 Compliant Devices                      |

User / Configuration Interface: Fully integrated HTML / Web Page user interface for device configuration and monitoring via an Ethernet connection on-site or from a remote client computer.
